

Look at me, Look at me!

Our latest IBA Entry System Paydrop LED plinths can accommodate up to a HUGE 19" touchscreen. They include an integrated LED light display within the upper drop cowl and lower pedestal base, that is configurable as to colour palette and sequences.

The video-capable touchscreen enables you to display your branding, run promotional videos and guide your customers through their wash purchases.

The Paydrop was specifically designed with colourful illumination to catch the eye of drive-by traffic, reminding and enticing potential customers to your carwash.

Select from the many colour combinations and sequences to create a bespoke lighting display at your site, making carwash a fun experience for all!

Get Glowing at your site NOW!

The Paydrop will create a show of its own at your site. Use the different colour sequences to promote events or community happenings. What are you waiting for?

Call us to get glowing today!
